### Powerpack battery life

Up to 10 hours with 2 bulkhead lights  
Up to 7 hours with 3 bulkhead lights  
Up to 5 hours with 4 bulkhead lights  
Up to 4 hours with 5 bulkhead lights  
Up to 3.5 hours with 6 bulkhead lights  
Up to 3 hours with 7 bulkhead lights  
Up to 2.5 hours with 8 bulkhead lights

### Installation instructions

- 1) Place a bulkhead 'B' within 5m of a suitable shelf for the power pack.
- 2) Use one bulkhead per 12ft stable or two for extra light where grooming etc.
- 3) Install the bulkhead lights up to 5m (15ft) apart with screws or cable ties.
- 4) Greater spacing can be achieved using optional extension cables 'C'.
- 5) Connect bulkheads together in a daisy-chain fashion.
- 6) Add the small Male to Male gender changer 'H' to the long cable of the 1st bulkhead
- 7) Plug the 1st bulkhead into the 19v socket on the powerpack 'A'.
- 8) Press the powerpack 'On' switch (if necessary).
